Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1, the automated machine and method of claims 1-13, 16-29, and 91.

Species 2, the automated machine and method of claims 14, 15, 30 and 31.

Species 3, the automated machine and method of claims 32-45.

Species 4, the automated banking system and method of claims 46-54.

Species 5, the method of claims 55-65.

Species 6, the system and method of claims 66-68 and 75-77.

Species 7, the system and method of claims 69, 70, 78 and 79.

Species 8, the system and method of claims 71, 72, 80 and 81.

Species 9, the system and method of claims 73, 74, 82 and 83.

Species 10, the method of claims 84-90.

Species 11, the automated machine of claims 92, 93 and 95-102 wherein the "the processor ascertains a monetary amount on the document image".

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic to all species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. The applicants' response (filed 2/8/2002) to the office action (mailed 7/3/2001) will be fully considered upon election of one of the above species for prosecution at this time.

4. A telephone call was made to Kenneth Samples on 5/1/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3624

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
